PROFESSIONAL SUMMARY

Junior Java Full Stack Developer and Artificial Intelligence student with hands-on experience in Java, Spring Boot, SQL, REST APIs, HTML, CSS, JavaScript, and web application development. Experienced in building full-stack projects including authentication systems, database integration, shopping cart functionality, CRUD operations, and API-driven applications. Strong foundation in OOP, backend development, relational databases, and web technologies. Currently studying Artificial Intelligence, including machine learning, deep learning, and data concepts. Seeking a Junior Java Developer, Full Stack Developer, Backend Developer, or entry-level AI-related position.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, HTML5, CSS3
Backend & Frameworks: Spring Boot, Hibernate, JDBC, REST API, SOAP API, Tomcat
Frontend: HTML, CSS, JavaScript, AJAX, Responsive Web Interfaces
Databases: SQL, MySQL, Relational Databases, Database Management, Query Optimization
Artificial Intelligence: Machine Learning, Deep Learning, Data Concepts, AI Fundamentals
Development Concepts: Object-Oriented Programming (OOP), Backend Development, Full Stack Development, API Integration, CRUD Operations, Web Applications
Tools & Formats: JSON, XML, API Integration

PROFESSIONAL EXPERIENCE

Artificial Intelligence Student | Success College - Tel Aviv | 10/2025 - Present

- Studying Artificial Intelligence as part of a professional training program, including machine learning, deep learning, data concepts, and AI-based applications.
- Strengthening analytical thinking, problem-solving, and software development skills while combining AI studies with Java Full Stack development.

Operations and Production Manager | Food Industry - Tel Aviv | 2018 - Present

- Managed production processes and coordinated daily operational workflows in a fast-paced environment.
- Led teams while maintaining efficiency, quality, process consistency, and operational priorities.
- Developed leadership, communication, problem-solving, and decision-making abilities under pressure.

TRAINING & PROJECT EXPERIENCE

Junior Java Full Stack Developer - Training Program | Specter Group Training Center - Tel Aviv | 2023 - 2025

- Developed full-stack web applications using Java, Spring Boot, SQL, HTML, CSS, and JavaScript.
- Built backend services and RESTful APIs, including authentication logic, CRUD operations, and database integration.
- Connected frontend components to backend services and practiced API integration and web application architecture.

Selected Projects: Full-stack authentication application; shopping cart system with product management and MySQL integration; REST API-based application using Java and Spring Boot; CRUD system connected to MySQL database.

EDUCATION

Qualified Artificial Intelligence Professional - Artificial Intelligence Studies | Success College - Tel Aviv, Israel | Expected: 06/2026

Java Programming Course | Specter Group Training & Testing Center - Tel Aviv, Israel | Completed: 01/2025

AutoCAD Diploma | Organization of Engineers and Architects - Tel Aviv, Israel | Completed: 01/2021

Specialist Diploma - Food Production Technology | Kaliningrad State Technical University - Kaliningrad | Completed: 01/2012
